PROFESSIONAL SUMMARY

Aspiring AI/ML Engineer and B.E. (AI & ML) graduate (2026, First Class with Distinction) working as an AI/ML Intern at Karpine Technologies, building machine learning forecasting and regression pipelines with ML.NET, integrated into enterprise ABP Framework applications. Skilled in Python (core), FastAPI, Flask, SQL, C#, and TypeScript, with full-stack projects in React and Remix, plus computer vision, NLP, and LLM projects in Python. Seeking entry-level AI/ML Engineer, Python Developer, and backend roles.

TECHNICAL SKILLS

- **Languages:** Python (Core), C#, SQL, TypeScript, C, Java; Object-Oriented Programming
- **Backend & Web:** FastAPI, Flask, REST APIs, Full-Stack Development, React, Remix, Tailwind, .NET, ABP Framework, Blazor
- **Data & Machine Learning:** Pandas, NumPy, Data Analysis, Data Preprocessing, Feature Engineering, ML.NET, Scikit-learn, TensorFlow, PyTorch, Keras, Regression, KNN, K-Means, Time-Series Forecasting, Model Evaluation
- **AI & Deep Learning:** Machine Learning, Deep Learning, Computer Vision, Natural Language Processing (NLP), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), CNNs, Transformers, HuggingFace, MediaPipe, OpenCV, AI Agents
- **Tools & Deployment:** Git, GitHub, CI/CD, Model Deployment, Streamlit, Vercel, Cloudinary CDN
- **Soft Skills:** Leadership, Team Collaboration
- **Languages Spoken:** English, Hindi, Tamil, Kannada

WORK EXPERIENCE

Karpine Technologies **Mar 2026 – Present**
AI/ML Intern *Bengaluru, India*

- Developed machine learning solutions with **ML.NET** within an enterprise application, covering data preparation, model development, evaluation, and inference workflows.
- Built end-to-end ML pipelines involving data preprocessing, feature engineering, model training, validation, and prediction in C#.
- Integrated machine-learning capabilities into an existing ABP Framework application while maintaining separation between ML, application, and presentation layers.
- Implemented forecasting and regression-based ML workflows and exposed predictions through application services (APIs) for integration with web applications.
- Worked across C#, ABP Framework, Blazor WebAssembly, and Git, gaining hands-on experience taking ML concepts into working software.

PROJECTS

Sign Language Interpreter | *Computer Vision & Real-Time Accessibility* **2025**
- Engineered a CNN-based system using MediaPipe and TensorFlow to interpret gestures with **88% accuracy**.
- Integrated Zoom and TTS APIs and a FastAPI service for 20+ live gesture-to-speech interaction sessions.

Summify: AI YouTube Summarizer | *NLP & LLM Deployment* **2024 – 2025**
- Deployed an LLM-powered tool in Python using HuggingFace, Flask, and FastAPI to provide 78% content reduction for video transcripts.
- Integrated a Q&A module that increased user interaction time by 60% across 50+ processed videos.

Researched Summarizer Agent | *Autonomous AI Agent Framework* **2026**
- Developed an autonomous AI agent using the **Opal** framework to automate academic paper research and synthesis.

Smart Image Gallery | *Full-Stack AI Integration* | smart-gallery-80002.web.app **Dec 2025 – Jan 2026**
- Built a high-performance gallery with intelligent search and drag-and-drop organization using TypeScript and Remix.
- Achieved a **95% Lighthouse score** and 40% faster load times via optimized asset delivery through Cloudinary.

AI Developer Portfolio | *Web Deployment* | samsondandin.lovable.app **2025 – 2026**
- Built and deployed a modern, responsive developer portfolio using React, TypeScript, and Tailwind CSS.
- Integrated dynamic project showcases and real-time performance metrics to demonstrate full-stack AI/ML capabilities.

EDUCATION

B.E. in Artificial Intelligence and Machine Learning **2022 – 2026**
SDM College of Engineering and Technology, Dharwad *First Class with Distinction*

Senior Secondary (CBSE), Science Stream **2022**
Kendriya Vidyalaya, Dharwad

CERTIFICATIONS

- **2025** Oracle Cloud Infrastructure 2025 AI Foundations Associate
- **2024–2025** Infosys Springboard: Cloud Technologies, Explore Machine Learning using Python, Programming using Java

ACHIEVEMENTS

- **Community Impact**: Led health awareness drives reaching 300+ people with Dandin Trust and Indian Cancer Society.
- **Street Play**: Acted with team Astitva: first place in a college street play and a main street play outside college.
